

SGNA - Sidewalk Condition Assessment

Spring - 2017

Condition and safety issues/block

- More than 5
- 4 - 5
- 2 - 3
- < 2

Condition issues may include broken or uneven concrete, ponding, intrusive vegetation or tree root buckling, missing ADA ramps, etc. Sidewalks less than 6' wide on designated pedestrian routes are deemed obsolete. Primary Routes include NE Clackamas east/west, and NE19th, 21st, 22nd, 24th, 26th, 28th, and 30th.
